When you think back on the 1980s what images come to mind? Neon clothes? Frizzy hair? Pop music? Perhaps thinking of 80s pop conjures up images of Madonna, Billy Idol, the Cure, and Michael Jackson. These artists are just a few of the pop idols from the 80s. 80's Pop music from the 1980s marked an important transition to the music we hear today and those pop stars we remember from the 80s deserve the credit for bringing about this change. From 80s pop music evolved a number of music genres such as punk, rap, and modern day pop which were not previously in the lime light. The 80s marked the end of the 60s and 70s music scene and ushered in a style of music completely new. The the help of music television like MTV, artists and bands now had the chance to promote their tunes in a new way and music videos helped leave a longer lasting impression on fans. This change in the music industry brought with it a slew of new musicians and the music industry got a huge push forward.
